In designing a values-based portfolio, Values Financial Network limits its recommendations to the portfolios of product providers contracted with Values Financial Network, Inc.

Under VFN's current investment screening technology, bonds and money markets are not screened, and international/foreign funds can only be screened for three issues: (alcohol, gambling, and tobacco).

Although Values Financial Network, Inc. exercises due care in compiling this data, VFN makes no warranty, express or implied, as to the accuracy, completeness, or usefulness of this value rating percentage. The overall rating in some cases is not a definite number. The stock holdings of a mutual fund or sub account may violate more than one issue and therefore over inflate the total values rating.
